

# Call for papers on “Special Issue on the 30<sup>th</sup> Anniversary of the Convention on the Rights of the Child”

**The Call for papers has been closed. Thank you for submissions.**

The year 2019 corresponds to the 30<sup>th</sup> Anniversary of the Convention on the Rights of the Child (CRC). The CRC was adopted by the General Assembly of the United Nations on November 20, 1989 and signed by all Member States. This is the first legally binding code of child’s rights. Japan also ratified it in 1994. That means, for Japan, 2019 is the year for the 25<sup>th</sup> Anniversary of the CRC.

Celebrating this special occasion, the Pediatrics International will publish the “Special Issue on the 30<sup>th</sup> Anniversary of the Convention on the Rights of the Child”. The four core principles of the Convention are non-discrimination; devotion to the best interests of the child; the right to life, survival and development; and respect for the views of the child. We believe that every right spelled out in the CRC should be thoroughly respected. However, we face a lot of challenge against the rights of the child and need discussions on it.

Thus, we invite a variety of articles including original articles dealing with CRC, viewpoint articles dealing with opinion to CRC and review articles.

The submission will be open by the end of August, 2020.

Please submit via online submission system “Scholar One” with cover letter clearly notifying that the manuscript is for the Special Issue of “the Convention on the Rights of the Child”.

<https://mc.manuscriptcentral.com/ped>

The article must confirm to Authors guideline of Pediatric International.
